

Password Reset and Account Policy

Resetting Your Password

To reset your corporate password, visit the Self-Service Password Reset portal at reset.company-sample.net. You must verify your identity using multi-factor authentication before setting a new password.

Password Requirements

Passwords must be at least 12 characters long and include one uppercase letter, one number, and one special character. Passwords expire every 90 days and cannot match your previous five passwords.

Account Lockout

After five failed login attempts your account is locked for 30 minutes. To unlock immediately, contact the IT Service Desk at extension 4357 or submit a ticket through the IT Service Portal.

Forgotten Username

If you forget your username, contact the IT Service Desk. For security reasons, usernames are not sent over email.
